Berlin School of Economics and Law - *Financial Analysis*   2015/16

PERSONAL

I am someone who enjoys the intricate, and grander aspects of life. I believe that I can learn something from anyone, and have something to teach everyone as well. I am a electronic music producer/DJ, video gamer, stock trader, and coder. I subscribe to the philosophy that with the right tools and motivation, anything can be accomplished. When I am passionate about something, I throw myself into that, and grow with the knowledge each experience brings.
